

## Save Energy and Cool Naturally

### Dynamic by Design

Enjoy the outdoors on your terms! With the touch of a button, a power screen will enhance your home and provide shade, energy savings, and ventilation. We have a history of providing exceptionally crafted, custom-made retractable shading systems. Our tradition of quality guarantees a sound investment in your home's comfort and elegance.

### Block the Sun, Not the View

Designed to filter out most of the sun's harmful effects while preserving your outdoor view and allowing you to better control your interior lighting. Our product reduces glare on computers and television screens and diminishes the harmful UV rays that fade furnishings and flooring.

## Side Retention System

### *Performance Under Pressure*

Our SRS™ System is one of the strongest retention systems available in the market today. Designed to keep the screen mesh stable and allow for worry-free use of your screen, even in windy conditions. Unlike other screen systems, your power screen can be left down when light wind blows.

## Recessed SRS™ Option

### *Design Your Porch Around Your Screen*

The recessed SRS™ tracks blend seamlessly into the house like a fine architectural accent. This streamlined application is designed for installation during construction. When the screen is lowered, it keeps you cool. When it's retracted, it vanishes.

## Cable Option

### *Sleek, Stylish, and Subtle*

The cable option is perfect for homes that call for a low-profile approach to avoid interrupting the style or architecture. Our screen's minimalist profile blends in to your home's exterior. Made with the same parts and quality as our Side Retention System, cables are used to guide the screen fabric as it is lowered or raised.

## Save Energy and Cool Naturally

Cool your home naturally with a power screen to reduce heat gain and decrease your reliance on traditional air conditioning. Research has shown that in many homes, exterior shading systems can reduce cooling costs up to 60%.

## Traditional & Contemporary Design

We offer two design choices for our Power Screen housing. Our new square housing is a great option for more modern or contemporary homes. Our traditional, more rounded design is the most popular amongst homeowners and where our journey into power screens started.

Square housing available on Series 4 and Series 5

## Fabric, Styles, and Colors

Screens are available in a wide range of fabric, style, and color options. They can block the sun and keep your view or provide complete blackout if desired.

## Durable Frame Colors

Power screens are available in sixteen standard frame colors. Every screen is built to order with powder coating done in-house, resulting in a beautiful appliance-like finish and requiring little maintenance. Custom colors are also available at an additional cost.
