K300

Fully Cassetted
Retractable Awnings

WHERE FASHION...

MEETS FUNCTION

Difficult Installations have Simple Solutions

This customer had only seven inches of mounting space over an out-swing door and several case-ment windows. The compact design of the K300 Retractable Awning fit beautifully and allowed full functionality of the door and windows. The deck width was thirty-four feet so two seventeen foot awnings were installed end to end. This allows for independent operation of each awning while maintaining a sleek seamless look when both awnings are fully extended or retracted.

RELAX! IT'S TIME TO UNWIND.

Perfect Technology in Compact Form

Limited mounting space, clean design and an optional drop screen were all factors in the decision to choose the K300 Retractable Awning for this home owner. When extended the awning seems to disappear into its surroundings, when retracted it blends perfectly with the homes exterior. The optional drop screen provides added solar protection when the sun is in a lower position and retracts effortlessly into the front bar of the awning when not in use.

Shown with optional Drop Screen.

Exclusively from Nulmage Awnings

Distinctive homes require exceptional accessories. The owner of this beautiful home wanted to maintain all of the esthetic appearance of the custom millwork on this quaint porch. With only a six inch header once again the K300 Retractable Awning with an almond finish was the answer. Whether looking from the outside or looking from the inside... perfection says it all.

SUN WHEN YOU WANT IT...
SHADE WHEN YOU NEED IT.

BEAUTIFUL OPEN...

... INVISIBLE CLOSED

The K300 has beautiful European lines enhancing your home's appearance while providing oasis like cool shade. When closed the sleek full cassette design simply disappears into your home's exterior.

WHERE FASHION MEETS FUNCTION.

The WireFree™ RTS Wind/Motion Sensor is a battery powered wind sensor that provides automatic wind protection for retractable awnings.

Patented articulating shoulders provide easy to adjust pitch control. These drop forged arm components will last a lifetime.

Power Up!
Relax under your new awning with a Somfy "Sunea" self-tensioning motor with remote control. Truly the easiest way to enjoy your new awning!

***Important Note:** Retractable awnings are designed for sun protection only. Warranties will not cover damage caused by adverse weather conditions such as wind, rain, snow or sleet.

The K300 Retractable Awning is the perfect solution for installations with minimal mounting space. The combination of its compact, state of the art design, and it's elegant fully enclosed cassette define the phrase "Where Fashion Meets Function". Double wall extrusions and drop forged arm components make this awning strong and beautiful. With a Lifetime Frame Warranty the K300 is truly a cut above the best!

The optional drop screen provides added solar protection when the sun is in a lower position.

The optional Roof Mount kit provides all the necessary heavy-duty powder coated brackets for roof mount installation when wall space height requirements cannot be met.
